Our recommended Revision Resources:

BBC Bitesize Seneca Food Unwrapped (Channel 4)

Food Science Food choice Food provenance NEA 1&2

This course covers:

Food hygiene & safety Food preservation Public health Nutrition

Higher level practical skills

YEAR 1:

YEAR 2:

The teachers say: "We love teaching this course because:

It covers the board subject that is food and shows why it is the most important subject on the curriculum. The course covers a wide range of topics but also teaches important life skills at the same time. You have the chance to be creative and scientific at the same time.

The students say: "We enjoy this course because: We love cooking all the different world foods and learning about nutrition

I find the links with PE really interesting and something I would like to do

I really enjoy the independent work and that homework is to cook!

What future pathways might be open to me if I study Food Preparation & Nutrition?

Level 3 Food Science & Nutrition Apprenticeships in catering, food manufacture butchery, Armed Forces – logistics core Catering courses at College Start you own restaurant
