## The teachers say:

Sociology is the study of society.

In other words it is about people and how they behave. Unlike other disciplines it looks at how people live and work together in groups. It asks searching questions about the world that we live in and tries to explain why it is the way it is.

### The students say: "We enjoy this course because:

...It expands your knowledge of society and allows you to understand how communities function. "

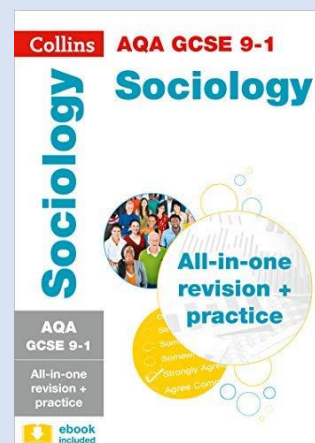

...Sociology prepares you with an understanding of societal standards and how these influence individuals and communities. "

...It is an interesting and unique subject, social sciences stand apart from the curriculum at KS3."

...Sociology helps you to argue better. It gives you ideas and theories to help explain the way things are in people's lives"
