Course undertaken: SSAT Leadership Legacy Project

Status: In progress

SSAT Leadership Legacy Project is a one-year course to develop teachers who have been identified to have the potential to be outstanding leaders.

Impact on current role:

Precision teaching, modelling and design of curriculum. Hopefully towards the end of the project there will be evidence that it has impacted student outcomes at A-level.

How has the course enhanced your leadership:

It has encouraged me to think about leadership styles and will give me the opportunity to share best practice in social sciences and possibly further KS5.

Name the best aspect of your course/role:

Networking with other individuals who have or would like to pursue leadership opportunities and the best way to go about achieving this.
